

Additions GP

Additions GP

Enhance Microsoft Dynamics GP with SalesPad Power, Elegantly.

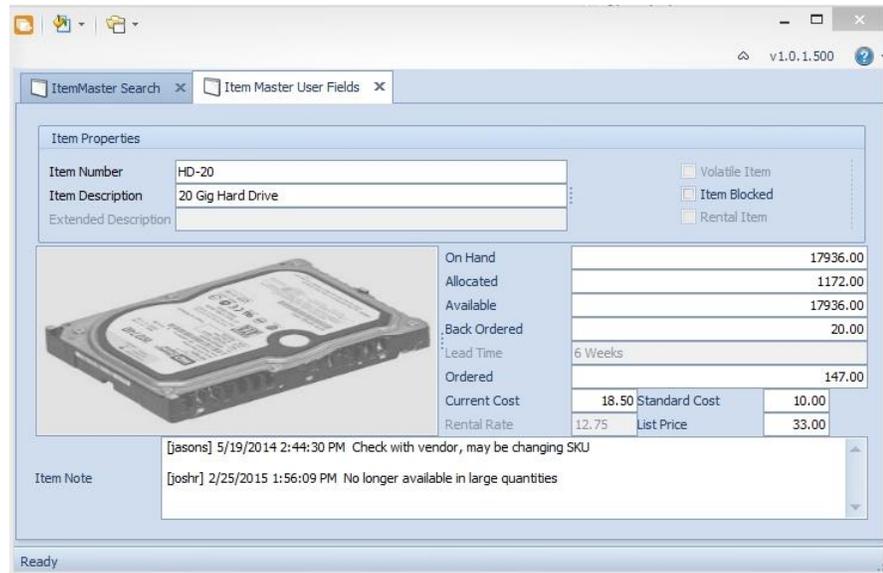

Additions GP provides user access to unlimited User Defined Fields (UDFs) and allows Microsoft® Dynamics GP users to search using SalesPad-style search functionality.

With its robust and elegant capabilities, Additions GP enhances and expands Dynamics GP native limitations.

Additions is included with the purchase of CardControl, giving users the ability to process credit card transactions in compliance with PA-DSS standards.

Features

- Customer search
- Sales document search
- Vendor search
- SOP entries
- UDFs, with image, memo text box, true/false, and drop-down options

Licensing

Per site, for Search and User Defined Fields
